

RoHS3 CERTIFICATE OF CONFORMITY

Products & Materials Included under RoHS3 All Rencol products, plastic and metal, including Mazak, Stainless steel, ZPS, Aluminium, Other Steels, Nylon 6, Polypropylene, POM, Duroplast, TPE, STPE, PVC, polycarbonate.

Excluded Products & Materials: Any product containing Brass CZ121 (free cutting brass) – See individual declaration.

The Company, **Rencol Ltd** declares that the included products & materials above comply with the RoHS directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Each component/material used in our products does not contain the following substances, or, if contained, their percentage will not exceed the limits given below: -

Substances and Limits for each Homogeneous Material Used:

Lead:	Limit: < 0.1% by weight (1000 ppm)*
Mercury:	Limit: < 0.1% by weight (1000 ppm)
Hexavalent chromium:	Limit: < 0.1% by weight (1000 ppm)
Polybrominated biphenyls (PBB):	Limit: < 0.1% by weight (1000 ppm)
Polybrominated diphenyl ethers (PBDE) – flame retarders, including Deca BDE:	Limit: < 0.1% by weight (1000 ppm)
Cadmium:	Limit: < 0.01% by weight (100 ppm)
Phthalates (DBP, BBP, DEHP, DIBP)	Limit: < 0.1% by weight (1000 ppm)

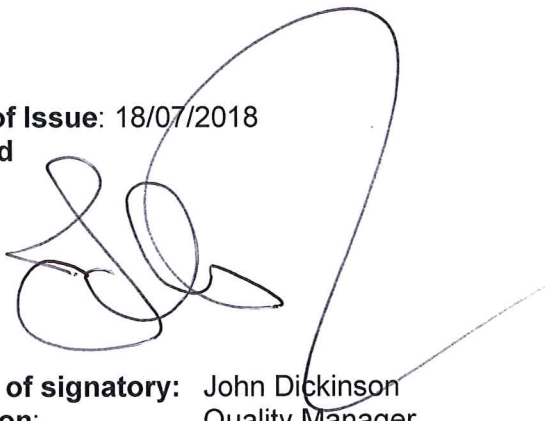

All assays were made by the SGS Chemical Laboratory, Xuhui, Shanghai.

We confirm that the Company has procedures in place that both minimises the risk of non-conformity and that maintains conformity. We assess & audit all new suppliers for RoHS2 conformity, and re-assess existing suppliers.

We undertake to inform clients immediately if evidence of supply of non-compliant product arises.
